Early Years Foundation Stage Policy December 2024

Sow Seeds: Grow Together: Reach High

Policy review date: December 2024

Date for next review: December 2025

“Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child’s experiences between birth and age five have a major impact on their future life chances. A secure, safe, and happy childhood is important in its own right.” Statutory Framework for the Early Years Foundation Stage, Department for Education 2021.

Aims of EYFS Education

Give each child a happy, positive, and fun start to their school life establishing solid foundations on which to expand and foster a deep love of learning.

- Inspire children through an imaginative and immersive curriculum, ensuring that children are happy and enthusiastic to learn and that we foster and nurture imagination and curiosity.
- Engage children in their learning through effective continuous provision balanced with structured learning opportunities.
- Support children to become independent, self-motivated and entrepreneurial learners, encouraging the children to adapt their work, think critically and take risks.
- Prepare children for 21st Century life by ensuring that every child is literate and numerate, and develops their empathy towards others, resilience and ambition to achieve.
- Encourage each child to be their best in all they undertake, encouraging each child to try new things, work hard and push themselves to continue to achieve and to persevere in any activity that is before them.
- Ignite children’s curiosity about the world around them and practice the technique of enquiry.
- Develop problem solving skills and perseverance.
- Increase awareness of the wider community, starting with their local community and providing opportunities to experience and learn about other communities and cultures further afield.
- Foster and nurture the children’s social and interpersonal skills, ensuring that they can work as a member of a team and can share their experiences and knowledge with their peers.

Curriculum

Reception pupils follow a progressive curriculum, as outlined in the Statutory Framework for the Early Years Foundation Stage, which is underpinned by *Development Matters* and *Birth to Five Matters*.

The EYFS framework includes seven areas of learning and development that shape our educational programme. All areas of learning and development are important and inter-connected. There are three areas that are seen as being particularly important for igniting children’s curiosity and enthusiasm for learning; for building their capacity to learn and form relationships and thrive (DfE 2021:1.4). These three prime areas underpin all other areas of the curriculum

The Prime Areas are:

- Communication and language
- Physical development
- Personal, social and emotional development (PSED)

The Specific Areas of Learning are:

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

Characteristics of Effective Learning

The EYFS curriculum also includes Characteristics of Effective Learning. These are regularly assessed through observations and planned for throughout the EYFS:

- Playing and Exploring – children investigate and experience things and events around them and ‘have a go’
- Active Learning – children concentrate and keep trying if they experience difficulties. They enjoy learning and take pride in their achievements.
- Creating and Thinking Critically – children have and develop their own ideas and strategies making links between different experiences.

Teaching Strategies

We ensure that there is a balance of adult led and child- initiated activities across the day. We believe that even during child- initiated activities the adults’ role and interaction with them is essential as this helps to build their understanding and guide new learning. The role of the adult is to continually model, scaffold, support, question and encourage.

Play Based Learning

Learning through play is an important and integral part of the Early Years curriculum and classroom. We believe that children learn best from activities and experiences that interest and inspire them. Using their interests as a starting point, we provide stimulating, active play experiences in which they can explore and develop learning to help make sense of the world. They have opportunities through play to think creatively and critically alongside other children and independently. Children can practice skills and build upon and revisit prior learning and experiences at their own level and pace. Play gives our children the opportunity to pursue their own interest, inspire those around them and consolidate their understanding and skills. The children learn to adapt, negotiate, communicate, discuss, investigate, and ask questions.

Direct teaching

Children in Reception participate in a daily Read Write Inc. Phonics session which is tailored to meet their needs. These sessions give children a solid grounding in phonics. When appropriate, Reception children are heard reading individually at least once a week. All children also have a daily maths session and activities to support learning through child initiated or independent activities, which

provides a purpose for learning and applying all maths skills. All Reception children will have both a writing and a mathematics book. All direct, taught sessions are carefully planned to use previous assessments of the children's knowledge, skills and ability. Planning is adapted in response to taught sessions and child's voice, ensuring all teaching and learning is relevant, progressive, and challenging. Weekly planning is to be put on the school's shared drive.

Visits and Visitors

Visits and visitors play an important role in the Early Years curriculum as these are seen as an opportunity to further develop our children's view of their world or community. Children are regularly given the opportunity to widen their experience through either visits to specific areas (e.g. the local church or library) or have visitors invited into the school who are seen as experts in their field. These are carefully planned and tailored to the topic the children are actively learning.

Classroom Organisation

Our Early Years classroom is organised with defined areas and resources that children can access easily and confidently. Children can experience writing, maths, creative play, role-play, construction, and small world play, as well as a quiet reading area. The outdoor area is as important as the indoor environment and is something we continue to develop, creating meaningful links between environments and providing high quality continuous provision for all learners. Being outdoors offers opportunities for doing things in different ways and on different scales from when indoors. The children can explore, use their senses and be more physically active. We therefore offer free flow access to our outdoor learning area throughout the school day.

Assessments, Observations and Learning Journeys

Assessment is an essential and important part of the Early Years. This involves practitioners observing children during taught sessions and free flow time to gain an understanding into each child's level of development, interests and learning styles. These observations and assessments will then be used to shape and scaffold future learning. Discussions are held with all adults in EYFS about individual children's development and next steps. Significant observations of children's' achievements are recorded on Tapestry and shared with parents. A display clearly shows the class learning journey each half term.

On entry to Reception baseline assessments are conducted. The children are assessed as being on track or not on track in each area of learning. Termly assessments are then carried out in order to measure progress and highlight children's levels of achievement and understanding, enabling us to tailor the curriculum accordingly for each individual child. At the end of Foundation Stage every child is assessed against the 17 Early Learning Goals (ELG), as either emerging or expected for each area of learning. This is reported to parents and carers in the child's end of year report.

Role of Staff

The role of adults is to ensure that every child's care and development is carefully catered for through play and other experiences. All adults aim to develop positive relationships with each child whom they teach, ensuring that children are happy, confident, and ready to learn.

Role of EYFS Leader

The EYFS leader will carry out termly pupil progress meetings to ensure good communication, consistency in practice and accelerated pupil progress. They will support and monitor all EYFS staff in delivering the curriculum and providing high quality learning for all children. This will be done through learning walks, pupil interviews, observations, and scrutinising work.

Relationship with Parents

We believe that parents/carers are a child's first educator and so we aim to work very closely with them. There are opportunities for parents to come into class and experience the work that their children have been completing during each term. A weekly update is provided on Tapestry to ensure there is strong communication with parents about what the children have been learning in school.

Transition

The jump to full time education can be very daunting for both parents and their children and we aim as a school to ensure that any transition is as smooth and comfortable as possible. The transition into our Reception class can be easier for those children who have already attended our school nursery but we work to meet the needs of all of our children regardless of where they are joining us from. In order to do this parents and child are invited to a transition meeting during the summer term to provide them with information about the school, curriculum and teaching staff.

Safeguarding

Children learn best when they are happy, safe and feel secure. We aim to ensure this through the continuous development of positive relationships between children and staff as well as relationships with their peers. We follow the safeguarding and welfare requirements detailed in the Early Years Foundation Stage Framework (2021). Our school has rigorous safeguarding policies and procedures that are used to identify anyone at risk of harm or radicalisation, this sets out a clear procedure for reporting any concerns from minor to major. All staff are regularly trained in Safeguarding. The school undertakes rigorous safeguarding checks when employing members of staff in line with statutory guidance for safer recruitment and school policy.

Health and Safety

Within the school we follow a set of guidelines regarding different aspects of Health and Safety. Healthy school meals – our children when they enter Reception are entitled to a free school meal.

Healthy snack – Fruit and vegetables are provided at playtime. We also encourage children to try new or more varied food/fruit. Milk is provided free of charge.

Accidents and First Aid – First aiders are on site at all times. If an accident occurs it will be treated, logged and reported to parents as appropriate.

Fire alarms – An emergency evacuation practice is organised at least once a term and all of these are timed and recorded. System is regularly reviewed, checked and maintained.

Child Protection and Safeguarding – Please see relevant policies on our website:

www.stgilbertspointon.co.uk

Monitoring Arrangements

This policy will be reviewed and approved by the Senior Leadership Team every year. At every review, the policy will be shared with the governing board for ratification.
